Vendor's past performance may be a consideration in the awarding of this contract

Vendor must complete and return this form for the quote to be considered responsive. A check mark shall be placed in the areas of specification agreement. **Variations must be clearly identified in the vendor's equipment column.** Failure to comply with any part of these specifications will not remove that quote from consideration but will indicate a variance on which the City alone will determine the importance to the overall performance of the item and suitability for the intended purpose. Equipment offered is to be new, unused and of the Manufacturer's latest model. Any omission from the specification shall not relieve the vendor from the responsibility of furnishing a unit ready for use.
